SUMMARY

Adaptable, internationally experienced professional with a passion for language, education, and technology. I have lived, studied, and worked in both Sweden and Japan, developing strong cross-cultural communication skills and flexibility in diverse environments. Through my roles as an **International Mentor** and **Language Café Leader**, I organized and facilitated events that supported intercultural exchange and language learning among students from around the world. These experiences deepened my skills in **multilingual communication**, **community engagement**, and **peer support**.

I also have a long history of practical work experience, including roles as a **lifeguard**, **teaching assistant**, **retail staff**, and **factory worker**. These jobs taught me the value of responsibility, calm decision-making under pressure, and teamwork in both customer-facing and operational roles.

Currently pursuing a **Bachelor's degree in Japanese Linguistics** while expanding my technical skills in **Java**, **C#**, and **Web Development**. I bring a unique combination of soft skills, international perspective, and a strong commitment to **continuous learning**, making me well-suited for roles that require flexibility, initiative, and strong interpersonal communication.

EDUCATION

❖ **Lund University** ·· 2022 — 2025

Bachelor's Degree, Japanese Linguistics   Sweden

- Studied Japanese phonetics, grammar, sociolinguistics, and translation
- Focused on second-language acquisition, communication theory, and script literacy
